

The Fourth International Conference on Modern Technologies in Oil and Gas Industries

Under the Patronage of
Prof. Dr. Muhsin Noori Hamzeh

President of the University of Technology

Supervised by

Prof. Dr. Khalid A. Sukkar

Dean of the College of Chemical
Engineering

**The Fourth International Conference on
Modern Technologies in Oil and Gas
Industries will be held on:**

JUL 17 29–30 April 2026

University of Technology, Baghdad, Iraq

In cooperation with
Midland Refineries Company
Al-Mustaqlab University
AL-Turath University
Al-Qalam University
Knowledge University

Conference Objective

- To provide a specialized platform for exchanging expertise and knowledge among researchers, industrial experts, and supporting institutions.
- To highlight the latest scientific and technological developments in the oil and gas sector.
- To shed light on the challenges facing the oil and gas industries.
- To present solutions and proposals to address these challenges and support future development.

**The Fourth International
Conference
on Modern Technologies
in Oil and Gas Industries**

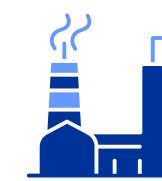

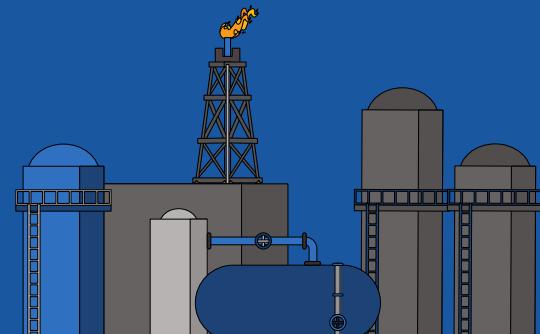

Submission Guidelines

- Original and previously unpublished research papers are accepted.
 - All submitted papers will undergo scientific peer review.
 - Accepted papers will be published in Clarivate - and Scopus - indexed journals.
-

Important Dates

- Deadline for Paper Submission: 20 March 2026
- Notification of Acceptance: 30 March 2026
- Conference Dates: 29–30 April 2026

Conference Themes

- Catalyst technologies, chemical additives, and alternatives.
- Environmental pollution and modern wastewater treatment methods.
- Applications of Artificial Intelligence in improving the performance of oil processing units.
- Corrosion control in oil and petrochemical industries.
- Applications of nanotechnology in the oil and gas industries.
- Treatment of emitted gases in oil industries.
- Process technology and bioprocess applications in the oil industry.
- Sustainable development and renewable energy in the oil industry.

Contact Information

- Research papers should be submitted electronically via the following platform:
<https://icmtogd2026.edas.info/>
